Precision Metal Finisher

This is an opportunity to work for a well-established engineering company who, due to an increasing orderbook, are currently going through a period of growth and seek a Metal Finisher to join their highly skilled team.

Key Responsibilities Include :

- Hand polishing and smoothing of engineered parts
- Cleaning and finishing parts prior to completion.
- Precision lapping and inspection under microscope
- Use of vibratory de-burring machines, wet & dry blasting machines as required
- General de-burring, using wide variety of powered and hand tools.
- Part-Marking as required
- CNC loading and de-burring as required

Key Requirements :

- Diligence and attention to detail are pre-requisites for this demanding and satisfying role in the business
- Understanding and reading engineering drawings
- Good eyesight & good dexterity
- Engineering experience within a similar environment

Remuneration : Competitive. Dependent on experience

Working Hours : 39hrs a week

Working week : Monday to Thursday 08:00 → 16:30
Friday 07:00 → 14:30
